The Indian's Panacea. TOR the cure of Rhenmatism Scrofula or King's Evil, Gout, Sciatica, or Hip-Gout, Incapient Cancers, Salt Rheum, Syphilitic and Mercurial diseases, particularly Ulcers and painful afflictions of the bones. Ulcerated Throat and Nostrils; Ulcers of every description, Fever sores's and Internal Abscesses; Fistulus, Piles, Scaldhead, Scurrey, Biles, Chronic, Some Eyes, Eye resipelas, Bloches, and every variety of confageous Affection, Chronic Catarrh, Headache, proceeding from an acrid humor; Pain in the Stomech and Dyspepsia, proceeding from vitiation; Affections Dyspepsia, proceeding from vitiation: Affections of the Liver, Chronic Inflamation of the Kidneys, and general debility, caused by a torpid action of the vessels of the skin. It is singularly efficacious by a novating those constitutions which have been broken down by injudicious treatment, or juvenile irregularities. In general terms, it is recommen ded to all those diseases which arises from imuri

ever name or kind. Some of the above complaints may require some triffing asistant applications, which the circum stances of the case will dictate; but for a genera remedy or Parificator, to remove the cause, Tue Is DIAS'S PANACE I will generally be found sufficient

sed in the blood, vitiation of the humors, of what

How true Alls, that modern s'y sieigns - in their

abition to excel in their professing to explo 10m the vast fields of shence by the aid of Chimistry and seek out new remedial agents; in short to atrive at perfection in the practice by means of ART alone,—overlook and neglect, as beneath their notice the rich and bounteous stores of medicine, which the almighty has bused to spring out of the earth in every clime! And how much more true it is, that while the American Physician looks to foreign countries for many of his most common and necessary articles perpetually changing as they are the dictures of fastion or folly he is surrounded in his own country with an endless profusion.

The congenially, cheesely and savery of vegetable remedies over mineral, may be estimated by

contrasting the ancient practice with the modern; or, to being it more immediately under our own observation, the Indian practice with that of the whites. Who in America, has not known or heard of repeated instances wherein some decrepid, unpretending tamale Indian by means of her simple remedies alone, has effected the most rapid and as-tonishing cures, after the whole Materia bledies of the common practice, directed in the most skilful manner has failed? And who has not been surprised at beholding the comparative case and facility with which the Indian frees himself of any dis-Bishop's Dwarf Prolific do

Dwarf Green Imperial diam with a constitution broken and ruined by illreatment? And can a doubt exist, that this happy exemption of the savage from most of the ills which the fiesh of civilized man is heir to, is chiefly owing to the more genial and safe remedies which he employs. This astonishing difference in success, is a fair exemplification of the infinite superiority of the simple and sufe means of care which God has created for the benefit of his children, over those which the pride and the act of man have is-

From a long residence among a portion of the aboriginal inhabitants of this country, and an intimate acquaintance with the methods of cures of male acquaintance with the methods of circs of some of their most successful practioners, the proprietor of the "Tux Ixpixx's Paxacta," acquired a knowledge of some of their most powerful and savorable remedies. From these he selected such as were most efficacious and appropriate, and after various experiments to test their principles and trength he has combined them in the form here presented, as the moss periedt and beneficial for

presented, as the moss peried and beneficial for the purpose for which it is recommended.

'I be proprietor offers this preparation to the pub-lic, with the consciousness that he is placing with in its reach, a remedy capable of relieving many of his afflicted fellow beings, who are suffering un-der the various chronic and obstinate complaints to which it is applicable. To such it will prove of inchloulable value, as the means, and in many ca-ses the only means of relieving their suffering, and, restoring them once more to health and happiness. restoring them once more to health and happiness This is not offered as a common remedy, that may perchance be equally good with many others now in use, but as one which is capable of saving life in many extreme cases, where all the usual remedies fail. Thus it has done repeatedly; and this is the reputation it has obtained wherever it has been in-

It is only about three years since this preparashort space of time, some hundreds of persons might be found, who would solemnly declare that they believed that their lives were saved by it, and in most cases after they had tried many per-haps all the common remedies in vain. Wherever it is known it is rapidly coming into use, and this affords the most substantial and convincing proof

of its merits. The value of the Panices, is most consplctions in those long standing and obstinate syphilitic and scrolulous affections which have defided all other remedies, and particularly in those cases where mercury has been so lavishly used as to cause dis-treasing pains in the bones, nodes, mercurial ul-cers, derangement of the digestive organs, &c. These it completely removes and in all cases I entirely eradicates the disease and the effects e mercury, renovates the constitution, and leave the patient cound and well. In Rheumatisms and in clocrated sore throat, its happy effects are not less apparent, giving almost immediate relief.

Taken in proper doses, The Isbras's Pasacca operates as an alternative, and detergent; a diarphoretic, directic and laxative; an antipasmodic

and anodyne, and in proper cases, as a stomachic and cimmenagogue. Generally expressed, it increases all the secretions and exertions, gives tone to the stomach, and excites action in the glands in a particular manner. From these principles its

operation may be understood.

This medicine has been found highly useful in many ambiguous discusses not here specified, and it has been used with wonderful success as a Spring and Fall purifier, by those who are subject to comquire new rigor. Such persons will do well to use two or three bottles in small doses. Wherever a diet drink is considered necessary, the Panacea. taken in a small dose, will answer all its purposes, in much less time, at less expense, and in a far more agreeable manner, than the common diet

The following certificates, out of bundreds similar which might be procured, are given to show the effect of Tux Indian's Panacka, in the vari-ous complaints therein mentioned; and also to exhibit in the most satisfactory manner its superiori-CASES OF RHEUMATISM.

CHARLESTON, Nov. 15, 1831. During the last winter and spring, I was afflicoccasioned by exposure in bad weather. I now take great pleasure in stating, that air bottles of the Indian's l'anacca, restored me to perfect

ilarly afflicted. JOHN FERGUSON, King-st. GARLESTON, March 27, 1032 I was seized about three years since with a dis-tressing Rheumatism caused by taking a severe cold while under the influence of mercury, and which has disabled me from business nearly ever which has disabled me from business hearly ever since. During this period I have been a patient in the Marine Hospital in this City, upwards of four months nearly, and the same length of time in the Beltimore Hospital, and tried almost every remody, with little benefit. On the 10th of February Axp at that time scarcely able to move about upon the same length of The Lucius and the same and the Panacea. In one month I found myself entirely a share of public patronage.

Cured from the pain, and am new happy to state that I feel myself perfectly well.

A. D. JOHNSON. that I feel myself perfectly well.

WM. TUCKER, 13 Market-st. CURE FOR SCROFULOUS ULCERS.

New York, Sept 10, 1830 This may certify, that in the fall of 1825, I was cers in my neck. After trying several Physicians to no advantage, I went to Philadelphia, and placed myself under the care of Drs. Physic and Beach, when, after repeated salivation to no effect, I was pronounced totally incurable. Afterwards I took twenty bottles of Swain's Panacea and eight bottles of Potter's Catholicon, with no material benefit. Desparing of life, which had now become a ber-then to me, I returned to my parents in New York in 1829, and gave myself up to a lingering death Hearing of the great success of THE INDIA'S PANACEA, however, in cases similar to my own, I was persuaded to try it, as a last resort. To my great surprise as well as satisfiction, I soon found myself rapidly recovering, and upon taking seven bettles, the ulcers healed and became perfectly well in the course of two months, and have remained so eve ince. I make this statement and wish it published for the benefit of those who are suffering under si milar scrofulous or syphilitie affections, that the may know what has cured one who has suffered every thing but death, and who considers his life saved by the above syrup. WM.

The above Medjeine may be had at WM. HINHAN.

LIVER COMPLAINTS.

R. PETERS' VEGETABLE MEDICINE STOMACHICE ET HEPATICE, formed by chymical analysis and synthesis of several prox mate vegetable principles, are universally achieved to have totally eclipsed the preteriors sions of every other remedy, and surperceded the necessity of every other mode of treatment, wherever the above disease are found to exist Borax, as well as in the eplargement of the Spicen and Turkey Opium,

n Jaundice. Among the symptoms of Dyspepsia and Livercomplaints, are l'atulency, sourness or burning in Cinnamon, the stomach melancholy trratibility, disagrecable Cloves, taste in the mouth; great irregularity of appetite. Orris Root, which is sometimes voracious, and at other times greatly deficient, thirst, fetid breath, nausea, weakness of the stomach, acid eructations, palpitation, drowsiness, irregularity of the bowels, pressure on the stomach after meals, pain in the head, dizziness or vertigo; confusion of mind, attended with loss of memory, a gnawing in the stomach Sulph Quinine, when empty, chiliness, affection of sight and hear. " Morphia, ing pain and weakness in the back, langour, disturbed sleep, cold feet and hands, tremor, uneasiness in the throat, chough pain in the side or breast, &c.

These medecines have been found so effectual in removing the complaints for which they are recom-mended, that physicians frequently having ex-hausted all their skill, to little or no purpose.

DR. PETERS Anti Billious Pills.

These pills are composed entirely of vegetable natter, and when taken according to the directions which accompany them, are highly beneficial in the cure and prevention of all Bilious complaints They act especially unpon the liver, when in a torpid condition, carrying off a large quantity of bile, through the influence of the excessent func-tion, which it suffered to remain in the system, would produce either Jaundice, Liver Complaint, Billious Fever Fever and Ague, or some other grievous bodily affliction. In all cases of torpor of As an auti dyspeptic and dinner pill they are in-

valuable. Many persons who were subject to vio-lent attacks of sick headache have been perfectlcared in a few weeks by their use. Those who are subject to that distressing complaint, sca-sickness by taking a portion or two of them a few days pre-rious to embarking on board the vessel, will be almost certain to escape it. Females can use them at all periods, without incurring any risk. Persons going to sea or to a southern climate, should by all means take some of these pills with them. Their virtues will remain unimpaired for years in any cli-mate. No family should be without these pills, a portion of them, taken occasionally, would be the means of preventing much suffering from sickness It is from neglect of keeping up a regular peristaltic ection of the stomach and bowels, thus suffering to be absorbed and mingled with the blood; anasmini lated fluids, that most diseases are produced Dr. P. feels confident that no person who gives these pills a fair trial, will ever after frei willing to be without them.

They contain no particle of Mercury, or any ingredient that does not act in harmony with health

Dr. P. wishes it particularly understood that of their purgative effects; they are both tonic and deobstruent soling upon the secreting and exhal-ent functions; thus strengthening the patient, while they remove obstructions. Medicines which possess no other, excepting cathartic qualities, de-bilitate the patient, and their repeated use lays tha foundation o.'s long catalogue of Chronic disea-

Dr P. having been educated under the most eminent American and European medical professors, and practiced his profession many years in the South where discuses of the most obstinate character prevail, considers himself well qualified to judge on the nature of diseases incident to warm

Prepared and sold by Joseph Priestly Peters, M. D. at his Institution for the cure of obstinate disasses, by means of vegetable remedies, No. 120 Liberty street. New Yerk, inventor and sole proritor. Each box contains 40 pills, price 50 cents.

The above valuable Medicines may be obtained to the Drug Store of YOUNG & M'KAIN.

Camden, May 7, 1836.
